**CENTRAL INTELLIGENCE AGENCY
Contracting Officer's
DETERMINATIONS AND FINDINGS**

AUTHORITY TO NEGOTIATE CONTRACT

The Central Intelligence Agency proposes to enter into a contract with the Baird-Atomic, Inc., Cambridge, Massachusetts, for the procurement of five (5) Navigational Sextants and necessary installation parts for installing in a particular aircraft.

25X1A I hereby find that this procurement, Project [REDACTED] is 25X1A
25X1A estimated to cost [REDACTED] and is chargeable during Fiscal Year 1959 [REDACTED]

is for five (5) Navigational Sextants and necessary installation parts. I also find that this procurement is in the interest of National Defense and that it will be certified by the Director of Central Intelligence in accordance with procedure approved by the DCI on 15 December 1956, to be for objects of a confidential, extraordinary and emergency nature and therefore within the purview of procurement authority of the Agency as stated in Section 10(b) of Public Law 110, 81st Congress. Procurement by formal advertising of the services called for by the proposed Contract No. HF-B-5111F would result in public disclosure of the nature and character of the equipment and its intended operational use and would thereby jeopardize the security classification of this project.

I hereby determine, as Contracting Officer for this contract, that the necessity and authority for negotiation of this contract have been adequately documented by proper Agency authority, and that the proposed contract must necessarily be negotiated without formal advertising.
